

#06 MY BOOKS

What does your book collection reveal about you?

Take stock of your book collection (both digital and physical), making notes if needed. Next, organize and draw your books on the page.

1. Books are organized and drawn on the "bookshelf" in the order of your choice.

2. COLOR = the book's genre

3. SHAPE = whether the book is physical or digital

4. FILL = the books you've actually read

5. BLACK DETAILING = extra information about the book

6. ANNOTATE your drawing with additional information that's important to you!
